FIELDS OF EXPERTISE

Data Analysis Insight discovery	Neural Networks Pattern recognition
Image Processing Image data analysis	3D Computing Spatial/Visual Simulations
3D Modeling Computer aided design	Technical Writing Effective information delivery

CODING LANGUAGES

Python High-level programming	C/C++ Efficient low-level programming
C# Object-oriented programming.	Bash Command-line
SQL Relational database management	

As a passionate IT Master's student with a specialization in Data Science, Image Processing, and 3D Computing, I am eager to leverage my academic knowledge and gain practical experience in the field of computer science and IT research through an internship opportunity. My goal is to contribute my skills and knowledge to a dynamic organization while gaining valuable work experience.

EXPERIENCES

School of Computer Science Engineering - Oviedo

(2022 - 2022)

Researcher

During the Summer of 2022, I participated in a Research Camp project at the University of Oviedo, Spain, where I conducted a full-scale research project and co-wrote and published a research paper with a local student. This experience allowed me to develop my research skills, work in a team, and improved my communication and collaboration skills.

Ecole et Observatoire des Sciences de la Terre

(2020 - 2020)

Researcher

During an internship at EOST, I developed a data-analysis tool using Python and Matplotlib that analyses data from landslide regions and generates statistics and graphs for surveillance. The internship was a valuable learning experience in which I was able to apply my programming skills and improve my problem solving and data analysis skills.

Concept Office

(2018 - 2018)

Service Technician

Computer maintenance and repair internship.

Production Analytical Expert

(2017 - 2017)

Internship

I did a discovery internship with a production analytical expert. This experience gave me an insight in the inner workings of the company, and I learned a lot about the drug manufacturing process.

Université de Strasbourg

(2019 - 2022)

Bachelor, Computer Science

14.3/20

Institut Sainte Jeanne d'Arc Mulhouse

(2016 - 2019)

Baccalauréat, Général

15.4/20

Institut Sainte Jeanne d'Arc Mulhouse

(2016 - 2020)

Allgemeine Hochschulreife, Général

1.2

TOOLS

Git Version Control	Jupyter Notebook Interactive computing
Pytorch Deep learning	Unity Game Engine
Godot Game Engine	Maya 3D Modeling
Blender 3D Modeling	Linux OS
Windows OS

PROJECTS

Travail d'étude et de recherche Research Project	(2023 - Heute)
I researched convolutional network compression methods while focusing on preserving segmentation performance and improving network generalization. This project helped me develop my skills in image segmentation and model compression.	
Projet Intégrateur Group Project	(2021 - 2022)
During a six-month long project, I led a 3D team of three students to create all the 3D assets and visuals for an artistic and cultural mediation app for the Musée Notre Dame de Strasbourg. The internship allowed me to develop my leadership and technical skills, as well as the ability to work in a collaborative environment. It was a challenging and rewarding experience that provided valuable skills and knowledge for my future career.

Nacht der Teddybären Game development	(2021 - 2022)
In a group of two students we created a small Teddy-Zombie survival game using Unity. I worked on the AI, the assets and the enemy spawner system which provided a valuable learning experience in Unity game development.	
https://youtube.com/playlist?list=PL5VbWKCRXUKL6w0nuwwNb_BE-n8IQ1LxP	
Sensha Series Game development	(2019 - Heute)
I have been developing a 2D strategy game series using Python and PyGame library for the first game and Godot engine for the second game, as a personal project. I have implemented gameplay mechanics, user interface and designed levels. This project has been a great opportunity for me to improve my programming skills and gain experience in game development.

WORK EXPERIENCES	
Niffer Town Council Versatile Agent	(2021 - 2022)
Commissioned by the town council of Niffer, I was in charge of maintaining equipment and assisting municipal agents. Additionally, as part of my mission, I was called upon to monitor the green space in the municipality.	
Niffer Grocery Store Grocery Store Salesperson	
As part of my duties for the town of Niffer, I regularly filled in for the salesperson at the village grocery store. I was responsible for sales, supply trips, accounting, and order preparation.
